COMPANY OVERVIEW

Welcome to Rasph Corporation. We are specialized in creating custom wire harnesses and cable assemblies to meet the specific needs of our customers. We have professionals with years of experience in the industry, our team is dedicated to providing high-quality products and exceptional customer service.

At our Wire Harness business, we pride ourselves on our ability to work closely with our customers to ensure that their wire harnesses and cable assemblies meet their unique specifications. Whether you're in need of a small batch or large-scale production, we can accommodate your needs.

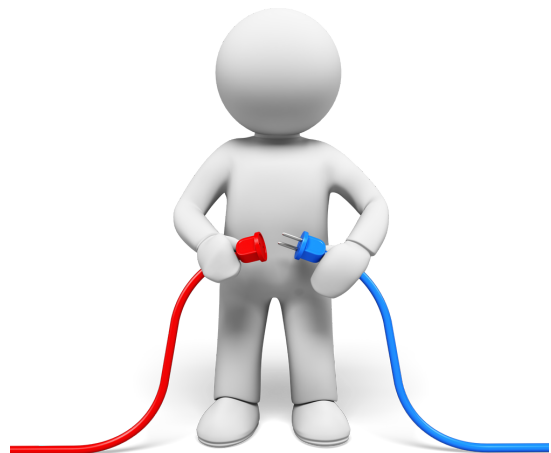

Our History

Rasph Corporation is an innovative wire harness company that was established in 2023 in Carrollton, Texas. As a startup, we bring fresh ideas, cutting-edge technologies, and a passion for delivering exceptional wire harness solutions to our customers. While Rasph Corporation is a new entity, we are backed by the expertise and experience of our sister company **"Sytiqhub EV Solutions Private Limited"** in India, which have been successfully operating since 2020.

Our journey began with our sister company in India, where we have established a strong presence in the wire harness industry. Over the years, we have honed our skills, expanded our capabilities, and built a solid reputation for delivering high-quality wire harnesses and cable assemblies to diverse industries.

Core Values and Commitment to Quality

At Rasph Corporation, our core values serve as the foundation of our business and guide our everyday operations. We firmly believe in upholding these principles to drive our success and maintain long-term relationships with our customers. Our core values are:

Quality First

We are committed to delivering high-quality wire harness solutions that meet or exceed industry standards. Quality control is a priority in every step of our manufacturing process.

Customer Satisfaction

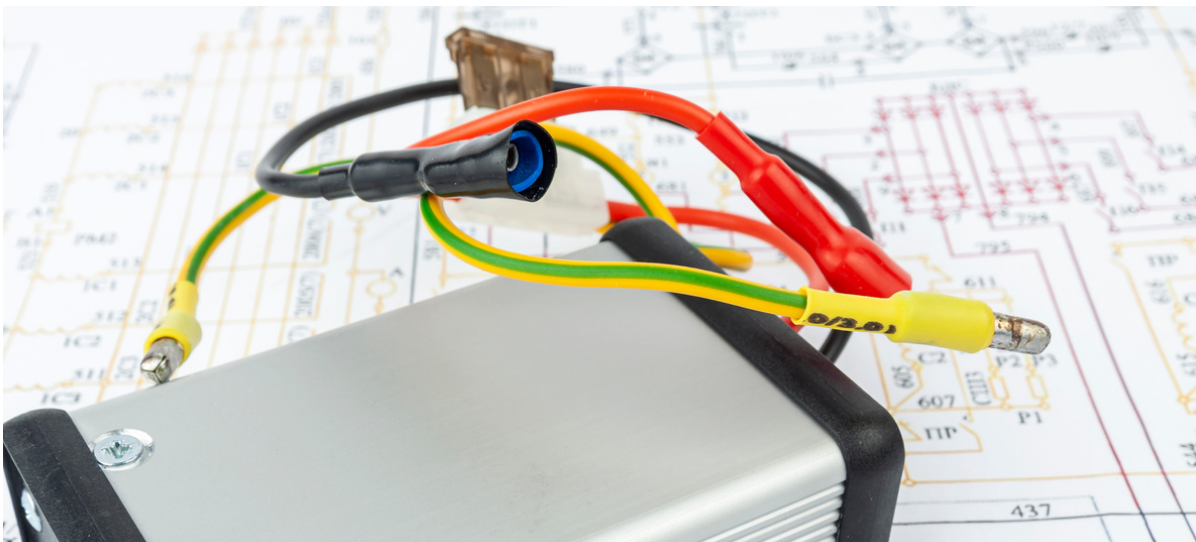

Our customers are our top priority. We focus on understanding their unique needs and aim to exceed their expectations through customized solutions, exceptional service, and prompt communication.

Innovation and Improvement

We embrace innovation and continuously seek ways to enhance our products and processes. Our dedicated research and development team stays updated with the latest advancements in the wire harness industry, ensuring efficiency and productivity improvements.

Integrity and Transparency

We conduct business with integrity, honesty, and ethical standards. Transparent communication and trustworthy relationships with customers, employees, and partners are paramount. We honor commitments and meet deadlines.

We understand the importance of quality assurance, which is why we are currently working towards obtaining our ISO 9001:2015 and AS 9100D certifications. These international standards for quality management and aerospace manufacturing respectively, assure our customers that our products are manufactured to the highest standards.

Currently, we are in compliance in following ISO 9001:2015 and AS 9100D standards.

Collaboration and Teamwork

We foster a collaborative and inclusive work culture where our talented and diverse professionals work together, leveraging their expertise and skills to tackle complex wire harness challenges. We encourage creativity, respect different perspectives, and embrace a collaborative approach to problem-solving.

Environmental Responsibility

We are dedicated to minimizing our environmental impact and promoting sustainability. We prioritize eco-friendly manufacturing practices, responsible waste management, and compliance with environmental regulations. Through sustainable operations, we contribute to a greener and more sustainable future.

PRODUCT OFFERINGS

Wire harness and Cable Assemblies Services

At Rasph Corp, we offer Make To Order (MTO) services, allowing us to construct products according to the specific requirements of each individual customer.

- D-Sub Connector Assembly
- Discrete Assemblies
- Flat Flex
- Coaxial (RF)
- OEM cable Equivalents
- Data Cabling
- Battery Cables
- Multi-conductor assemblies
- Automotive cables
- Recreation Vehicles
- Rack and Panel Connectors
- Circular Connectors
- SATA Cables
- HIPOT Testing
- Continuity Testing
- Low-volume and high-volume production
- Custom Packaging
- Cable harness repair and rework
- Panel Wiring

Engineering and Design Services

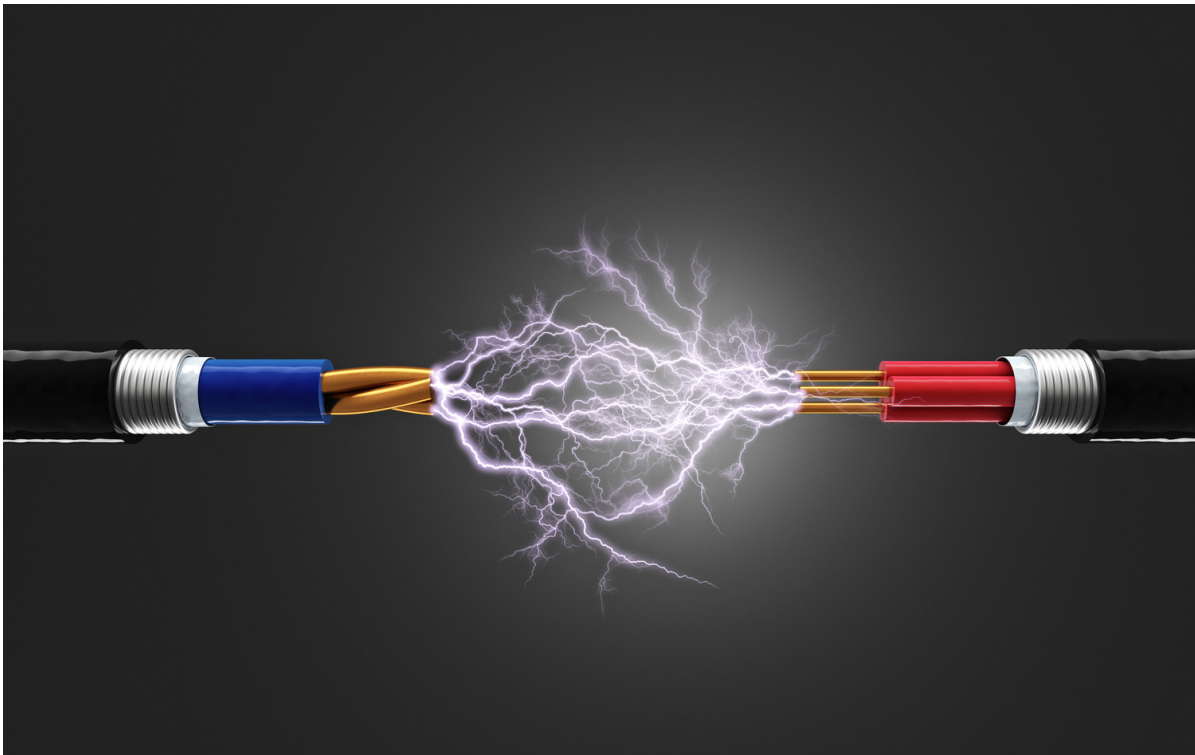

At Rasph Corporation, we offer comprehensive design services to support our customers in realizing their vision for their products. Our team of experts works closely with clients to understand their specific requirements and provide tailored design solutions that meet their unique needs. Whether you need a simple product design or a complex engineering project, our design services can help you bring your ideas to life. With Rasph Corp, you can be confident that your product will be designed to the highest standards and deliver the results you need.

- Collaborative approach to designing optimal solutions
- Reverse Engineering
- Prototyping and Testing
- Manufacturing Feasibility
- 2D & 3D CAD
- Manufacturing Fixtures & Tooling

COMPETITIVE ADVANTAGE

- Expertise and Experience in the Industry
- In-house and Off-shore Design and Engineering Team
- Quality Control Processes
- Off-shore additional production facility
- Strong customer focus
- Dedicated customer lines
- Off-shore procurement & supply capabilities
- Flexible Production Capabilities
- Scalable Production Capacity
- Responsiveness to changing market needs
- Efficient and cost-effective solutions

OUR CAPABILITIES

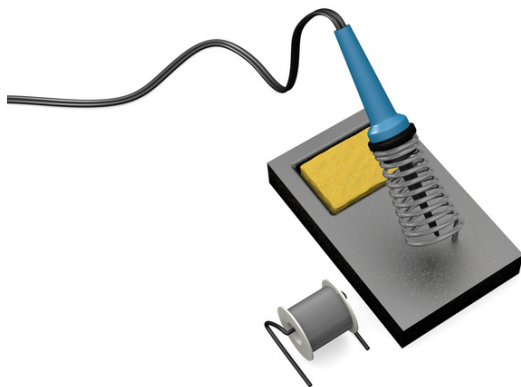

In-house Equipment List:

- Wire Strip and Cutting Machines
- Wire Crimping Press Machines
- Crimp Pull Tester
- HIPOT Tester
- Continuity Tester
- Label Printers
- Shrink Wrap Label Printers
- ESD Monitors
- Soldering Stations
- Benchtop Smoke Absorbers

Current Shop Setup:

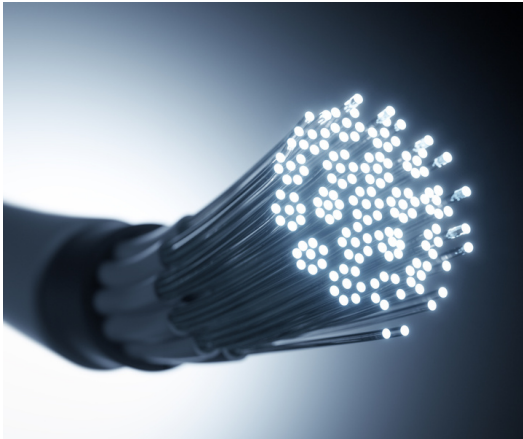

- Custom Wire harness & Cable Assemblies build.
- Design & Engineering Services.
- Prototyping.
- Crimp Testing.
- Reverse Engineering.
- Soldering.

Ready to Add as per customer request/requirements:

- Dedicated Lines for customers.
- Sheet metal fabrication capabilities.
- SMT Wave soldering.
- PCB probe testing.
- Virtual warehouse to showcase product in stock.
- Custom Connector Molding.
- Ultrasonic Welding.
- Custom Box Builds.

QUALITY ASSURANCE

Commitment to Continuous Improvement:

We believe in continually improving our processes, products, and services. Our dedicated team actively seeks feedback, conducts regular evaluations, and implements enhancements to ensure that we consistently deliver the best wire harness solutions. Through continuous improvement, we strive to meet evolving customer needs and stay ahead of industry advancements.

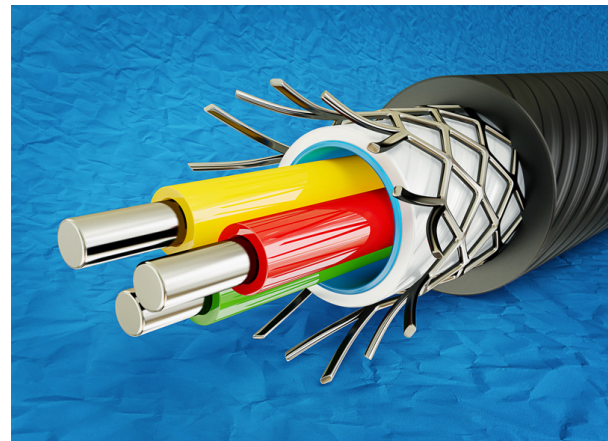

With our focus on compliance, stringent quality control processes, and commitment to continuous improvement, we ensure that our wire harness solutions meet the highest standards of quality, reliability, and performance.

Compliance with Industry Standards

We ensure compliance with industry standards ISO 9001:2015 and AS 9100D to guarantee the quality of our wire harness solutions. Adhering to recognized standards helps us meet the requirements and expectations of our customers and the industry as a whole.

Quality Control Processes and Certifications

Our rigorous quality control processes are implemented at every stage of production. We have established comprehensive quality control measures to ensure the reliability and performance of our wire harness and cable assemblies. Additionally, all our employees are trained and certified in IPC 620/WHMAA-A-620 that demonstrate our commitment to maintaining high-quality standards.

OUR TEAM

At Rasph Corp, we are proud to have a highly skilled and experienced team of Engineers based in USA and India. Our team of 20 Engineers comprises professionals with diverse backgrounds in Mechanical, Electrical, Software, Industrial, and Manufacturing Engineering.

Our Team is dedicated to providing the highest quality engineering services to our customers.

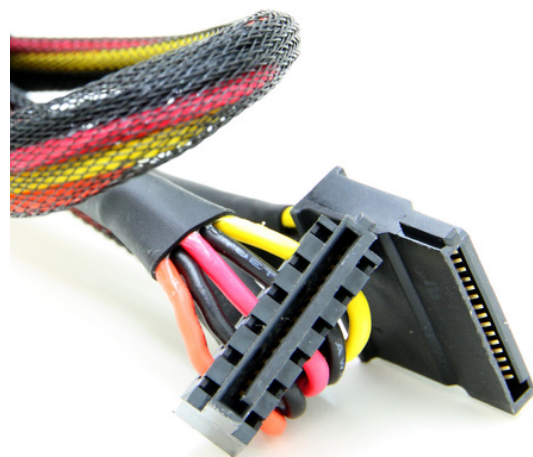

They work closely with our customers to understand their specific requirements and are able to deliver innovative solutions that meet the unique needs of each project.

They are committed to delivering outstanding results for our customers and our goal is to help you achieve your business objectives.

Off-Shore Capabilities

Our off-shore sister company "**Sytiqhub EV**" is based in India which have the following capabilities:

- Sheet Metal Fabrication Shop
- Engineering Firm (20+ professional engineers)
- Plenty of resources
- Software Developers
- Material Sourcing and acquisition
- Fiberglass and Carbon fiber components manufacturing
- Custom Wire harness & Cable Assemblies build.
- Bulk and low-volume builds
- Kitting

CUSTOMER FOCUS

Customer Satisfaction:

Customer satisfaction is a key metric for measuring the success of any business, and Rasph Corp is no exception. The company places a strong emphasis on meeting or exceeding customer expectations and has developed a range of processes and systems to ensure that it consistently delivers high-quality products and services. Some of the ways that Rasph Corp ensures customer satisfaction include:

Listening to customer needs:

We take the time to understand the unique requirements of each customer and provide tailored solutions to meet those needs.

Providing exceptional customer service:

The company has a customer-focused approach and provides friendly and knowledgeable support to customers throughout the entire product lifecycle

Maintaining high standards of quality:

We have a strong focus on quality and use rigorous quality control processes to ensure that all products meet or exceed customer expectations.

Delivering on time:

The company strives and focuses on delivering products on time, helping to reduce customer frustration and improve satisfaction levels.

CONTACT US

We welcome the opportunity to connect with you and discuss your wire harness needs. Our dedicated team at Rasph Corporation is ready to assist you in finding the optimal solutions for your specific requirements. Get in touch with us using the following contact information:

Our responsive and knowledgeable sales representatives are available to answer any questions you may have, provide detailed information about our wire harness solutions, and guide you through the process of partnering with us. We are committed to providing a seamless and satisfying customer experience from the first point of contact

Whether you are seeking a quote, require technical assistance, or simply want to learn more about our capabilities, don't hesitate to reach out to us. We are eager to engage with you and understand how we can best meet your wire harness needs.

Contact Rasph Corporation today and discover why we are the trusted choice for high-quality Wire harness & Cable assembly solutions.
